The Quotable Kierkegaard

Edited by Gordon Marino

"*The Quotable Kierkegaard* serves equally well as an introduction or a reference book. There is no better way to sample the unique flavor of Kierkegaard's thought. And if you ever need a quotation for a speech or a sermon, for an epigraph or an epitaph, for a dedication or a denunciation, you're sure to find a striking one here."

—David Lodge, author of *Small World*, *Therapy*, and other novels

"This book is the best of two worlds: a rich collection of quotations from Kierkegaard that also provides a quick introduction to the central core of his thinking."

—Alastair Hannay, author of *Kierkegaard: A Biography*

The father of existentialism, Søren Kierkegaard (1813–1855) was a philosopher who could write like an angel. With only a sentence or two, he could plumb the depths of the human spirit. In this collection of some 800 quotations, the reader will find dazzling bon mots next to words of life-changing power. Drawing from the authoritative Princeton editions of Kierkegaard's writings, this book presents a broad selection of his wit and wisdom, as well as a stimulating introduction to his life and work.

Organized by topic, this volume covers notable Kierkegaardian concerns such as anxiety, despair, existence, irony, and the absurd, but also erotic love, the press, busyness, and the comic. Here readers will encounter both well-known quotations ("Life must be understood backward. But then one forgets the other principle, that it must be *lived forward*") and obscure ones ("Beware false prophets who come to you in wolves' clothing but inwardly are sheep—i.e., the phrasemongers"). Those who spend time in these pages will discover the writer who said, "my grief is my castle," but who also taught that "the best defense against hypocrisy is love."

Illuminating and delightful, this engaging book also provides a substantial portrait of one of the most influential of modern thinkers.

2013, 304 pages, 19 halftones.

Cl: 978-0-691-15530-2 \$24.95 | £16.95

"[W]hy I so much prefer autumn to spring is that in the autumn one looks at heaven—in the spring at the earth."

JN, vol. 1, Journal DD: 74, p. 236

"But if the self does not become itself, it is in despair, whether it knows that or not."

SUD, p. 30

—Søren Kierkegaard

Would You Kill the Fat Man?

The Trolley Problem and What Your Answer Tells Us about Right and Wrong

David Edmonds

“Lucid, witty, and beautifully written, this book is a pleasure to read. While providing an introduction to moral philosophy, it also presents engaging portraits of some of the greatest moral philosophers from Thomas Aquinas to the present day, and it makes the case for the relevance to ethics of the new experimental moral psychology. It is a tour de force.”

—Kwame Anthony Appiah, author of *The Honor Code: How Moral Revolutions Happen*

“Dave Edmonds has a remarkable knack for weaving the threads of philosophical debates into an engaging story. *Would You Kill the Fat Man?* is a stimulating introduction to some key ethical issues and philosophers.”

—Peter Singer, author of *The Life You Can Save*

A runaway train is racing toward five men who are tied to the track. Unless the train is stopped, it will inevitably kill all five men. You are standing on a footbridge looking down on the unfolding disaster. However, a fat man, a stranger, is standing next to you: if you push him off the bridge, he will

topple onto the line and, although he will die, his chunky body will stop the train, saving five lives. Would you kill the fat man?

The question may seem bizarre. But it's one variation of a puzzle that has baffled moral philosophers for almost half a century and that more recently has come to preoccupy neuroscientists, psychologists, and other thinkers as well. In this book, David Edmonds, coauthor of the best-selling *Wittgenstein's Poker*, tells the riveting story of why and how philosophers have struggled with this ethical dilemma, sometimes called the trolley problem. In the process, he provides an entertaining and informative tour through the history of moral philosophy. Most people feel it's wrong to kill the fat man. But why? After all, in taking one life you could save five. As Edmonds shows, answering the question is far more complex—and important—than it first appears. In fact, how we answer it tells us a great deal about right and wrong.

The Soul of the World

Roger Scruton

“This is a wonderful and in many places beautiful work; closely argued, though best read not as an argument but as a genuine ‘turning for home’ on the part of a learned and deeply thoughtful man, who offers us hard-won insights as he fixes his gaze on our final end.”

—Mark Johnston, Princeton University

“This is a rich and highly sensitive book, which engages the reader on many levels, and which approaches religion not doctrinally, but via the full range of human sensibility, especially moral and aesthetic, and our capacities for seeing the world not just in terms of impersonal scientific structures, but in deeply personal terms. Finely written and argued, the book is philosophically sophisticated yet accessible.”

—John Cottingham, Heythrop College London and University of Reading

May 2014. 248 pages. 5 halftones. 5 musical examples.

Mirror, Mirror

The Uses and Abuses of Self-Love

Simon Blackburn

"A wise, witty, and rewarding read."

—Patricia S. Churchland, author of *Touching a Nerve: The Self as Brain*

"A lively philosophical commentary on a topic of immediate cultural concern, *Mirror, Mirror* presents a biting critique of narcissism and other vices of the overinflated self. Simon Blackburn brings the issues to life with his customary irreverence and energy: he's alert to their moral and cultural significance, has a keen eye for the ridiculous, and wears his learning lightly."

—Rae Langton, Massachusetts Institute of Technology

Everyone deplores narcissism, especially in others. The vain are by turns annoying or absurd, offending us whether they are blissfully oblivious or proudly aware of their behavior. But are narcissism and vanity really as bad as they seem? Can we avoid them even if we try? In *Mirror, Mirror*, Simon Blackburn, the author of such best-selling philosophy books as *Think, Being Good*, and *Lust*, says that narcissism, vanity, pride, and self-esteem are more complex than they first appear and have innumerable good and bad forms. Drawing on philosophy, psychology, literature, history, and popular culture, Blackburn offers an enlightening and entertaining exploration of self-love, from the myth of Narcissus and the Christian story of the Fall to today's self-esteem industry.

A sparkling mixture of learning, humor, and style, *Mirror, Mirror* examines what great thinkers have said about self-love—from Aristotle, Cicero, and Erasmus to Rousseau, Adam Smith, Kant, and Iris Murdoch. It considers today's "me"-related obsessions, such as the "selfie," plastic surgery, and cosmetic enhancements, and reflects on connected phenomena such as the fatal commodification of social life and the tragic overconfidence of George W. Bush and Tony Blair. Ultimately, *Mirror, Mirror* shows why self-regard is a necessary and healthy part of life. But it also suggests that we have lost the ability to distinguish—let alone strike a balance—between good and bad forms of self-concern.

March 2014. 248 pages. 1 table.

Lectures on the History of Moral and Political Philosophy

G. A. Cohen

Edited by Jonathan Wolff

"This collection of lectures—erudite, demanding, and precise, yet funny and accessible—captures Jerry Cohen's inimitable voice and sparkling brilliance. Whether discussing Plato, Locke, Marx, or Nietzsche, Cohen guides the reader through the historical context while rejuvenating its urgency by interweaving modern political concepts. Cohen's rare approach—combining charitable interpretation, intellectual honesty, analytical clarity, and a love of teaching—exemplifies how to treat historical texts as contemporary interlocutors."
—Seana Shiffrin, UCLA School of Law

"These essays demonstrate brilliantly Cohen's intellectual commitment to going naked into the debating chamber. Arguments are broken down, reconstructed, analyzed, and evaluated with such perspicuity that readers can pinpoint precisely where their own judgments diverge from Cohen's, while being challenged to match his standards in responding."
—David Owen, University of Southampton

G. A. Cohen was one of the leading political philosophers of recent times. He first came to wide attention in 1978 with the prize-winning book *Karl Marx's Theory of History: A Defence*. In subsequent decades his published writings largely turned away from the history of philosophy, focusing instead on equality, freedom, and justice. However, throughout his career he regularly lectured on a wide range of moral and political philosophers of the past. This volume collects these previously unpublished lectures.

Starting with a chapter centered on Plato, but also discussing the pre-Socratics as well as Aristotle, the book moves to social contract theory as discussed by Hobbes, Locke, and Hume, and then continues with chapters on Kant, Hegel, and Nietzsche. The book also contains some previously published but uncollected papers on Hobbes, Kant, and Marx, among other figures. The collection concludes with a memoir of Cohen written by the volume editor, Jonathan Wolff, who was a student of Cohen's.

A hallmark of the lectures is Cohen's engagement with the thinkers he discusses. Rather than simply trying to render their thought accessible to the modern reader, he tests whether their arguments and positions are clear, sound, and free from contradiction. Throughout, he homes in on central issues and provides fresh approaches to the philosophers he examines. Ultimately, these lectures teach us not only about some of the great thinkers in the history of moral and political philosophy, but also about one of the great thinkers of our time: Cohen himself.

Essays and Reviews

1959–2002

Bernard Williams

Foreword by Michael Wood

“This collection is the work of an exceptional thinker—an insightful philosopher who was also an acute observer of the world. Williams has a virtually unerring eye for the specious, for the concealed premise, and for overblown rhetoric, which he brings to light with a mordant wit, tinged at times with a wry sympathy for his target.”

—Charles Taylor, McGill University

“One of the foremost twentieth-century philosophers, Bernard Williams was also an acute critic of contemporary thought and letters. This well-chosen collection of essays and reviews

is packed with arguments and insights, ranging across topics as diverse as the logic of abortion and whether the idea of God has any meaning. Richly enjoyable as well as consistently illuminating, this will be a feast of ideas for all who care about the intellectual condition of the culture.”

—John Gray, professor emeritus, London School of Economics

New
Moral Perception
Robert Audi

“This book defends the most illuminating and novel theory of moral perception to date. In making a case for objectivity in ethics, Robert Audi insightfully explores the relations between moral perception, intuition, emotion, and imagination. His clear and engaging style, and his use of many examples to explain and illuminate the key distinctions and ideas, makes the book accessible to students, while its substantial contribution to ethical theory makes it a must-read for experts.”

—Mark Timmons, University of Arizona

“I don’t know of any other work in recent years that has examined moral perception so thoroughly or with such epistemological sophistication. Audi’s book makes an important contribution to the unduly neglected field of moral epistemology, and it should interest a broad philosophical audience.”

—Noah Lemos, College of William and Mary

Soochow University Lectures in Philosophy

How We Hope

A Moral Psychology

Adrienne M. Martin

"Hope is an important yet recently neglected philosophical topic. Hope plays a central role in our daily plans, and in the ways we face upheaval, illness, and loss. But is hope rational? Does it do any good? Martin's fresh look at these questions is insightful, rigorously and resourcefully argued, and genuinely illuminating. A further strength is the book's serious engagement with Kant, Hume, and other historical thinkers."

Aristotle

His Life and School

Carlo Natali

Edited by D. S. Hutchinson

"What was it like for Aristotle to be a foreigner in Athens? What did it take for him to found a school independent of his friends? What happened in his classroom? And what was it like to adopt philosophy as an aristocratic lifestyle? Carlo Natali's highly readable biography of Aristotle brings to life a very complex subject. Natali acknowledges the merits of Jaeger's great biography of the philosopher, but I would now recommend Natali's even more highly."

—Richard Sorabji, Wolfson College, University of Oxford

"This is the best account of Aristotle's life in print. Carlo Natali has given us a critical biography at once truly authoritative and highly accessible—a rare achievement. At the same time, his lucid and compelling narrative offers a distinctive view of the *raison d'être* of Aristotle's school. There is nothing else of anything like the same stature in English that one could recommend either to students or scholars—and this book will appeal to both."

—Malcolm Schofield, professor emeritus, University of Cambridge

2013. 240 pages. 1 line illus. 2 tables.

Forthcoming

The Analytic Tradition in Philosophy, Volume 1 The Founding Giants

"This is an incredibly rewarding book. The range of topics and level of detail are breathtaking. Soames is very skilled at turning the prose of other philosophers into clear, precise, and logically transparent arguments. Over and over again he takes an unfiltered passage and turns it into a numbered sequence of premises and conclusion. . . . This volume will be a great pedagogical tool, both as a classroom text and as a reference."

—Peter Hanks, University of Minnesota

This is the first of five volumes of a definitive history of analytic philosophy from the invention of modern logic in 1879 to the end of the twentieth century. Scott Soames, a leading philosopher of language and historian of analytic philosophy, provides the fullest and most detailed account of the analytic tradition yet published, one that is unmatched in its chronological range, topics covered, and depth of treatment. Focusing on the major milestones and distinguishing them from the dead ends, Soames gives a seminal account of where the analytic tradition has been and where it appears to be heading.

March 2014. 680 pages. 7 tables.

Logic

The Laws of Truth

Nicholas J. J. Smith

"Smith's book combines accessibility with comprehensiveness in a way that I have not found in other texts. It is very readable and well paced, but does not sacrifice precision. Difficult issues aren't glossed over or skipped, but are introduced at a gentle pace for novice logicians. As a teacher of logic, I see real benefits in Smith's approach."

—Jennifer Duke-Yonge, Macquarie University, Australia

Logic is essential to correct reasoning and also has important theoretical applications in philosophy, computer science, linguistics, and mathematics. This book provides an exceptionally clear introduction to classical logic, with a unique approach that emphasizes both the hows and whys of logic. Here Nicholas Smith thoroughly covers the formal tools and techniques of logic while also imparting a deeper understanding of their underlying rationales and broader philosophical significance. In addition, this is the only introduction to logic available today that presents all the major forms of proof—trees, natural deduction in all its major variants, axiomatic proofs, and sequent calculus.

Logic is the ideal textbook for undergraduates and graduate students seeking a comprehensive and accessible introduction to the subject.

On Sacrifice

Moshe Halbertal

"Moshe Halbertal has a tremendous knack for turning arcane topics and esoteric texts into the most exciting and topical ideas to think about. *On Sacrifice* moves from biblical practices of animal sacrifice to modern ideas about self-sacrifice in war. The book is at its most profound in sorting out the relation between violence and sacrifice. Altogether, this is a very moving and deep book—philosophically, anthropologically, and religiously."

The Virtues of Our Vices

A Modest Defense of Gossip, Rudeness, and Other Bad Habits

Emrys Westacott

"Works on ethics often float above the flux and confusion of everyday life. Not this engaging book!

Brimming with lively examples, Westacott's meditation reveals the bright side of some of our darker practices, such as gossip, sick humor, and rude behavior. While the writing is breezy, the analysis is both rigorous and lucid. By the turn of the last page, the delighted reader is sure to have developed a more nuanced and perhaps forgiving grasp of some of our most common transgressions."

—Gordon Marino, editor of *Ethics: The Essential Writings*

Meaning in Life and Why It Matters

Susan Wolf

Introduction by Stephen Macedo

"Susan Wolf is one of the clearest, most thoughtful, and most incisively elegant writers in contemporary ethics. She has an uncanny knack for putting her finger on important points and expressing them in ways that capture the imagination. In this book, she develops her ideas about meaningfulness in life with considerable subtlety, creating a work of genuine depth and importance."

The Paradox of Love

Pascal Bruckner

Translated by Steven Rendall

"Pascal Bruckner is one of the most original, and least academic, of the new French philosophers. He has a mordant wit, a feeling for the pregnant sentence, and his dissection of the myths of romantic love—too elegantly done to be called a 'deconstruction'—is ideal reading for lovers of paradox, and even for those still in love with love's paradox."

—Adam Gopnik, author of *Paris to the Moon and The Table Comes First*

2012. 272 pages.

Fear and Trembling and The Sickness Unto Death

Søren Kierkegaard

Translated and with notes by Walter Lowrie

Walter Lowrie's classic, bestselling translation of Søren Kierkegaard's most important and popular books remains unmatched for its readability and literary quality. *Fear and Trembling* and *The Sickness Unto Death* established Kierkegaard as the father of existentialism and have come to define his contribution to philosophy. Lowrie's translation, first published in 1941 and later revised, was the first in English, and it has introduced hundreds of thousands of readers to Kierkegaard's thought.

Kierkegaard counted *Fear and Trembling* and *The Sickness Unto Death* among "the most perfect books I have written," and in them he introduces two terms—"the absurd" and "despair"—that have become key terms in modern thought. *Fear and Trembling* takes up the story of Abraham and Isaac to explore a faith that transcends the ethical, persists in the face of the absurd, and meets its reward in the return of all that the faithful one is willing to sacrifice, while *The Sickness Unto Death* examines the spiritual anxiety of despair.

Walter Lowrie's magnificent translation of these seminal works continues to provide an ideal introduction to Kierkegaard. And, as Gordon Marino argues in a new introduction, these books are as relevant as ever in today's age of anxiety.

Kierkegaard's Journals and Notebooks

Søren Kierkegaard

Edited by Niels Jørgen Cappelørn, Alastair Hannay, David Kangas, Bruce H. Kirmmse, George Pattison, Vanessa Rumble & K. Brian Söderquist, in cooperation with the Søren Kierkegaard Research Centre, Copenhagen

The Søren Kierkegaard Research Centre at the University of Copenhagen has produced the first complete critical edition of all of Kierkegaard's writings, published and unpublished. Using this definitive Danish edition and with the support of the Kierkegaard Research Centre and the Danish government, a group of well-known scholars is producing an 11-volume English language edition, including explanatory notes, of *Kierkegaard's Journals and Notebooks*. The volumes will appear at intervals of about a year and a half.

The Seducer's Diary

Søren Kierkegaard

Edited and translated by Howard V. Hong & Edna H. Hong

"In the vast literature of love, *The Seducer's Diary* is an intricate curiosity—a feverishly intellectual attempt to reconstruct an erotic failure as a pedagogic success, a wound masked as a boast," observes John Updike in his foreword to Søren Kierkegaard's narrative. This work, a chapter from Kierkegaard's first major volume, *Either/Or*, springs from his relationship with his fiancée, Regine Olsen. Kierkegaard fell in love with the young woman, ten years his junior, and proposed to her, but then broke off their engagement a year later. This event affected Kierkegaard

profoundly. Olsen became a muse for him, and a flood of volumes resulted. His attempt to set right, in writing, what he felt was a mistake in his relationship with Olsen taught him the secret of "indirect communication." *The Seducer's Diary*, then, became Kierkegaard's attempt to portray himself as a scoundrel and thus make their break easier for her.

Matters of marriage, the ethical versus the aesthetic, dread, and, increasingly, the severities of Christianity are pondered by Kierkegaard in this intense work.

2013. 232 pages.

With Lowrie's essay "How Kierkegaard Got into English" and a new introduction by Alastair Hannay

A Short Life of Kierkegaard

Walter Lowrie

"A remarkable phosphorescent condensation.... [Lowrie gives] us the very essence of the man.... A superb study."

—*New Republic*

In this classic biography, the celebrated Søren Kierkegaard translator Walter Lowrie presents a charming and warmly appreciative introduction to the life and work of the great Danish writer. Lowrie tells the story of Kierkegaard's emotionally turbulent life with a keen sense of drama and an acute understanding of how his life shaped his thought. The result is a wonderfully infor-

mative and entertaining portrait of one of the most important thinkers of the past two centuries.

2013. 320 pages.

Philosophy of Biology

Peter Godfrey-Smith

"Clearly written and up to date, this valuable book provides a really useful overview of the philosophy of biology, as well as some distinctive arguments. Perhaps uniquely, the book succeeds in presenting its topics as clearly philosophical while engaging the relevant biology."

—John Dupré, University of Exeter

This is a concise, comprehensive, and accessible introduction to the philosophy of biology written by a leading authority on the subject. Geared to philosophers, biologists, and students of both, the book provides sophisticated and innovative coverage of the central topics and many of the latest developments in the field.

Authoritative and up-to-date, this is an essential guide for anyone interested in the important philosophical issues raised by the biological sciences.

2014. 200 pages. 3 line illus.

Hume's Politics

Coordination and Crisis in the History of England

Andrew Sabl

"*Hume's Politics* engages Hume's *History* with unrivalled erudition and sensitivity to detail, and convincingly unlocks the structure and logic of that work through a novel analysis of the principle of dynamic coordination. Sabl not only gives us a new way to understand Hume's theory of political authority but also develops, through his reading of Hume, an original conception of the grounds of authority and the basis of political coordination. Throughout, he powerfully models a form of normative theorizing that fruitfully integrates historical and empirical studies of politics. A truly impressive achievement."

—Sharon R. Krause, Brown University

"This remarkable book restores David Hume's political thought to its rightful place at the center of political theory and connects Hume to central themes in contemporary political analysis. Sabl does justice to the details of Hume's account without ever losing the thread of the main arguments. A magnificent achievement."

—William A. Galston, Brookings Institution

2013. 352 pages. 1 line illus.

Our Bodies, Whose Property?

Anne Phillips

"The topic of this clear and accessible book is timely and important, and the implications of talking about and treating the body as property affect a broad range of policy concerns. A major contribution to debates in both philosophy and public policy, this book should be read by philosophers, political theorists, feminist theorists, bioethicists, and general readers for its theoretical and practical guidance to some of today's thorniest issues."

—Mary L. Shanley, Vassar College

2013. 216 pages.

A Confucian Constitutional Order

How China's Ancient Past Can Shape Its Political Future

Jiang Qing

Translated by Edmund Ryden

Edited by Daniel A. Bell &

Ruiping Fan

"Should Confucianism be treated as an official religion guiding the Chinese state? Or should it serve more as a stimulus for moral cultivation? This volume assembles arguments by one of the most ardent advocates of a religious Confucian constitutional order, together with number of rejoinders that, without fully endorsing Western liberalism, favor a greater balance between East and West. A fascinating collection for China experts and students of political philosophy."

—Fred Dallmayr, University of Notre Dame

"At the very moment that China is roiling with pressure for change—ethically, politically, and spiritually—Jiang Qing has unveiled a provocative road map that seeks to reconnect the nation's past with its future. This book opens the window on the struggle for China's soul."

—Evan Osnos, China correspondent for the *New Yorker*

Princeton-China Series

In Our Name
The Ethics of Democracy
Eric Beerbohm

"Are citizens in a democracy complicit in the injustices perpetrated by a state that acts in their name? Yes they are, argues Eric Beerbohm. *In Our Name* is a major statement in democratic theory that develops a novel approach to the relationship between citizen and representative. This book will reorient our understanding of the nature of representation in a democracy."

—Rob Reich, Stanford University
2012. 368 pages.

Democratic Reason
Politics, Collective Intelligence,
and the Rule of the Many
Hélène Landemore

"Hélène Landemore's book is a landmark in the study of collective decision making. It scrutinizes and synthesizes a vast body of work, paying as much attention to the failures of deliberation and majority voting as to their achievements. Nobody working on normative theories of democracy can afford to ignore it."

—Jon Elster, Columbia University
2013. 304 pages. 5 line illus. 5 tables.
Cl: 978-0-691-15565-4 \$39.50 | £27.95

On Global Justice
Mathias Risse

With a new afterword by the author
The Ethics of Voting
Jason Brennan

"Jason Brennan's surprising investigation of the ethics of voting grapples with some of the most entrenched dogmas in our political culture. ... His conclusions will shake some readers up, and our thinking about democracy will be better for the debates that are sure to ensue."

—David Estlund, author of *Democratic Authority*
2012. 232 pages. 3 line illus.

Cl: 978-0-691-14481-8 \$42.00 | £28.95

On Global Justice
Mathias Risse

"Risse's new book is ambitious in scope and diverse in intellectual resources. In his explorations of the leading questions of international justice, he is admirably sensitive to the wide range of grounds—including common humanity and natural, social, and political relationships—that ought to shape the answers. His account of common ownership of the earth diversifies our historical resources as well, by putting Grotius's work to use in addressing deep, current controversies."

—Richard Miller, Cornell University
2012. 480 pages.
Cl: 978-0-691-14269-2 \$39.95 | £27.95

Jason Brennan

Corey Brettschneider

**When the State Speaks,
What Should It Say?**
How Democracies Can Protect
Expression and Promote Equality
Corey Brettschneider

"A bold answer to the problem of the liberal state which allows illiberal views to flourish without coercion, this book shows that core liberal ideals can be expressed by the state in words, funding, and schooling. Corey Brettschneider consolidates and extends his theory of value democracy, offering an alternative to neutrality and perfectionism alike."

—Melissa Lane, Princeton University
2012. 232 pages.

Framing Democracy
A Behavioral Approach to Democratic Theory
Jamie Terence Kelly

A Virtue for Courageous Minds
Moderation in French Political Thought, 1748–1830
Aurelian Craiutu

“Aurelian Craiutu has written a superb book. The lost virtue of moderation—what Tacitus called ‘the most difficult lesson of wisdom’—has at last been given voice. It would be a nice irony if it took a group of French thinkers to teach contemporary Americans something about the value of political moderation and constitutional government. I hope this book will be widely read, especially by our elected officials.”

—Steven Smith, Yale University

2012. 360 pages.

Maimonides Life and Thought Moshe Halbertal

"In this learned and penetrating work, Halbertal offers us a Maimonides who draws on the dominant Greco-Islamic thought of his time while creating a system of thought that is fully Jewish. He shows us how the early *Commentary on the Mishnah* links up with the *Mishneh Torah* and with the *Guide of the Perplexed*, written at the end of his life, to form an unexpected and radical intellectual unity. Beautifully written, *Maimonides* brings out both Maimonides's intellectual success and the paradoxical critical approaches to him after his death."

Wilhelm Dilthey: Selected Works

Wilhelm Dilthey

Edited by Rudolf A. Makkreel & Frithjof Rodi

A six-volume translation series of the major writings of Wilhelm Dilthey (1833-1911), a philosopher and historian of culture who has had a significant, and continuing, influence on twentieth-century Continental philosophy and in a broad range of scholarly disciplines. In addition to his landmark works on the theories of history and the human sciences, Dilthey made important contributions to hermeneutics and phenomenology, aesthetics, psychology, and the methodology of the social sciences.

Dictionary of Untranslatables
 A Philosophical Lexicon
Edited by Barbara Cassin
 Translation edited by Emily Apter, Jacques Lezra & Michael Wood

This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as *Dasein* (German), *pravda* (Russian), *saudade* (Portuguese), and *stato* (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages—English, French, German, Greek, Italian, Portuguese, Russian, and Spanish.

When People Come First
 Critical Studies in Global Health
Edited by João Biehl & Adriana Petryna

When People Come First critically assesses the expanding field of global health. Topics include the limits of technological quick fixes in disease control, the moral economy of global health science, the unexpected effects of massive treatment rollouts in resource-poor contexts, and how right-to-health activism coalesces with the increased influence of the pharmaceutical industry on health care. The contributors explore the altered landscapes left behind after programs scale up, break down, or move on. We learn that disease is really never just one thing, technology delivery does not equate with care, and biology and technology interact in ways we cannot always predict. The most effective solutions may well be found in people themselves, who consistently exceed the projections of experts and the medical-scientific, political, and humanitarian frameworks in which they are cast.

When People Come First sets a new research agenda in global health and social theory and challenges us to rethink the relationships between care, rights, health, and economic futures.

Weimar Thought

A Contested Legacy

Edited by Peter E. Gordon & John P. McCormick

"[T]he first work in a generation that presents a comprehensive overview of Weimar culture with all its complexity and contradictions."

—Peter Carl Caldwell, Rice University

2013. 464 pages. 12 halftones.
Cl: 978-0-691-13510-6 \$35.00 | £24.95

Why Everyone (Else) Is a Hypocrite

Evolution and the Modular Mind

Robert Kurzban

"Using humour and anecdotes, [Kurzban] reveals how conflict between the modules of the mind leads to contradictory beliefs, vacillating behaviours, broken moral boundaries and inflated egos."

—*Nature*

2012. 288 pages. 2 halftones. 1 line illus.
Pa: 978-0-691-15439-8 \$18.95 | £12.95
Cl: 978-0-691-14674-4 \$27.95 | £19.95

A *New Yorker* Reviewers' Favorite for 2011

The Joy of Secularism

11 Essays for How We Live Now

Edited by George Levine

"[A] diverse collection on what it means to be a secularist, with thoughtful essays from philosophers, historians, literary critics, and evolutionary theorists.... The essays are literate and sophisticated."

—Simon Blackburn, *Prospect*

2012. 272 pages. 3 halftones.
Pa: 978-0-691-15602-6 \$24.95 | £16.95
Cl: 978-0-691-14910-3 \$46.95 | £32.95

The Princeton Encyclopedia of Islamic Political Thought

Edited by Gerhard Bowering

Patricia Crone, Wadad Kadi, Devin J. Stewart, Muhammad Qasim Zaman, associate editors
Mahan Mirza, assistant editor

The first encyclopedia of Islamic political thought from the birth of Islam to today, this comprehensive, authoritative, and accessible reference provides the context needed for understanding contemporary politics in the Islamic world and beyond.

2012. 704 pages. 7 maps.
Cl: 978-0-691-13484-0 \$75.00 | £52.00

Blessed Are the Organized

Grassroots Democracy in America

Jeffrey Stout

"*Blessed Are the Organized* should be required reading for anyone who cares about the future of democracy in the United States, and anyone who cares about the making of politics."

—Lauren F. Winner, *Sojourners*

Magazine

2012. 368 pages. 7 maps.
Pa: 978-0-691-15665-1 \$24.95 | £16.95
Cl: 978-0-691-13586-1 \$29.95 | £19.95

Manhunts

A Philosophical History

Grégoire Chamayou

Translated by Steven Rendall

"Applying the rubric of hunting to contemporary debates about illegal migrants, Chamayou shows that the supposedly newest hunt refreshes an old motif. A provocative take on a topic of great currency."

—Jimmy Casas Klausen, University of Wisconsin–Madison
2012. 200 pages. 9 halftones.
Cl: 978-0-691-15165-6 \$35.00 | £24.95

The Everett Interpretation of Quantum Mechanics

Collected Works 1955–1980

with Commentary

Edited by Jeffrey A. Barrett & Peter Byrne

"It's a good thing, both for physicists working on the foundations of quantum theory and for historians of science, that these papers have been collected and made available in so convenient a form. They give a fascinating glimpse into one of the most important chapters in the history of ideas."

—David Deutsch, author of *The Beginning of Infinity*

2012. 408 pages. 44 halftones.
Cl: 978-0-691-14507-5 \$75.00 | £52.00

ANNOUNCING THE PRINCETON LEGACY LIBRARY

The *Princeton Legacy Library* uses the latest technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books in durable paperbacks. The goal of the *Princeton Legacy Library* is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. For titles in the library visit: press.princeton.edu/princeton-legacy-library/
