Britain’s Mammals
A Field Guide to the Mammals of Britain and Ireland
Dominic Couzens, Andy Swash, Robert Still & Jon Dunn

Britain’s Mammals is a comprehensive and beautifully designed photographic field guide to all the mammals recorded in the wild in Britain and Ireland in recent times—including marine mammals, bats and introduced species that have bred. The book features hundreds of stunning photographs and incorporates invaluable tips and suggestions to help you track down and identify even the most difficult species. Handy and informative, this guide is the ideal companion for anyone interested in watching mammals in Britain and Ireland.

Britain’s Spiders
A Field Guide
Lawrence Bee, Geoff Oxford & Helen Smith

Britain’s Spiders is a photographic guide to all 37 of the British families, focussing on spiders that can be identified in the field. Illustrated with a remarkable collection of photographs, it is designed to be accessible to a wide audience, including those new to spider identification. This book pushes the boundaries of field identification for this challenging group by combining information on features that can be seen with the naked eye or a hand lens with additional evidence from webs, egg-sacs, behaviour, phenology, habitats and distributions. As the first photographic field guide to British spiders to be published since 1989, this book fills a major gap in the resources available to everyone with an interest in this fascinating, diverse and important group of animals.

**Britain’s Birds**

*An Identification Guide to the Birds of Britain and Ireland*

Rob Hume, Robert Still, Andy Swash, Hugh Harrop & David Tipling

“This guide is head and shoulders above any other photo guide I have seen…. This is without doubt the best photo guide now on the market…. The ambitious scope of this guide and the high quality of its execution should ensure a wide audience.”—Andy Stoddart, *Rare Bird Alert*

“Princeton University Press’s natural-history books deliver the ‘wow’ factor time and time again, and this ID guide to every bird species seen in the UK including some non-natives is no exception…. The result is a must-read for bird enthusiasts.”—John Miles, *BBC Wildlife*

**Birds of Europe, North Africa, and the Middle East**

*A Photographic Guide*

Frédéric Jiguet & Aurélien Audevard

Translated by Tony Williams

*Birds of Europe, North Africa, and the Middle East* is the first comprehensive pocket-sized photographic field guide to every bird species in Europe—this includes winter visitors and common migrants but also all rarities to the region, even if they have been recorded only once. The guide also covers hypothetical species—those that have a good chance of being recorded due to such factors as range expansion and changing weather patterns.

Lavishly illustrated, up-to-date, and wide-ranging, *Birds of Europe, North Africa, and the Middle East* is an essential field guide for every naturalist and birder.

2017. 448 pages. 2,200 colour photos and maps. 5 x 7½.
Pa: 978-0-691-17243-9 £24.95 | $29.95

“This is an excellent photographic field guide. Considering its portable size, the coverage is immense. Practical, handy, and attractive, it will have a wide appeal.”

—Nigel Redman, author of *Birds of the Horn of Africa*
New
Horses of the World
Élise Rousseau
Illustrated by Yann Le Bris
Translated by Teresa Lavender Fagan

Horses of the World is a comprehensive, large-format overview of 570 breeds of domestic and extant wild horses, including hybrids between the two and between domestic breeds and other equids, such as zebras. This beautifully illustrated and detailed guide covers the origins of modern horses, anatomy and physiology, variation in breeds, and modern equestrian practices. The treatment of breeds is organized by country within broader geographical regions—from Eurasia through Australasia and to the Americas. Each account provides measurements (weight and height), distribution, origins and history, character and attributes, uses, and current status. Every breed is accompanied by superb colour drawings—600 in total—and colour photographs can be found throughout the book.

2017. 528 pages. 600 colour illus. 8 x 10.

The New Neotropical Companion
John Kricher

"My original copy of John Kricher’s ‘little green book’ is stained and battered from three decades of tropical travel—which is why I’m delighted that Kricher has produced The New Neotropical Companion, a truly landmark revision of his classic: bigger, better, lushly illustrated, but with the same chatty, accessible tone that makes John the perfect guide."
—Scott Weidensaul, author of Living on the Wind

The New Neotropical Companion is the completely revised and expanded edition of a book that has helped thousands of people to understand the complex ecology and natural history of the most species-rich area on Earth, the American tropics. It is a pleasurable escape for armchair naturalists, and visitors to the American tropics will want to refer to this book before, during, and after their trip.

2017. 448 pages. 618 colour photos. 18 colour illus. 7½ x 9½.

A Photographic Field Guide to the Birds of India, Pakistan, Nepal, Bhutan, Sri Lanka, and Bangladesh
Bikram Grewal, Sumit Sen, Sarwandeep Singh, Nikhil Devasar & Garima Bhatia

This is the only comprehensive photographic field guide to the birds of the entire Indian subcontinent. Every distinct species and subspecies is covered with photographs, text, and maps. The guide features more than 4,000 stunning photographs, many never before published, which have been carefully selected to illustrate key identification features of each species. The up-to-date facing-page text includes concise descriptions of plumage, voice, range, habitat, and recent taxonomic changes. Each species has a detailed map reflecting the latest distribution information and containing notes on status and population density.

2017. 792 pages. 4,000+ colour photos. 1,300+ maps. 6 x 8½.

A Sparrowhawk’s Lament
How British Breeding Birds of Prey Are Faring
David Cobham with Bruce Pearson
With a foreword by Chris Packham

“Engaging reading. The book will remain a firm favourite with those, like me, for whom these are special birds.”—Mike Toms, BBC Wildlife Magazine

In this handsomely illustrated book, acclaimed British filmmaker and naturalist David Cobham offers unique and deeply personal insights into Britain’s birds of prey and how they are faring today. Featuring drawings by acclaimed wildlife artist Bruce Pearson, this book reveals why we must cherish and celebrate our birds of prey, and why we neglect them at our peril.

Raptors of Mexico and Central America
William S. Clark & N. John Schmitt
With a foreword by Lloyd Kiff

“Accurate, comprehensive, and authoritative.”—Sergio Seipke, Raptors

Raptors are among the most challenging birds to identify in the field due to their bewildering variability of plumage, flight silhouettes, and behaviour. Raptors of Mexico and Central America is the first illustrated guide to the region’s 69 species of raptors, including vagrants. It features 32 stunning colour plates and 213 colour photos, and a distribution map for each regularly occurring species. Detailed species accounts describe key identification features, age-related plumages, status and distribution, subspecies, moult, habitats, behaviours, potential confusion species, and more.

2017. 304 pages. 32 colour plates. 213 colour photos. 3 line illus. 64 maps. 6⅝ x 10.

Wildlife of Ecuador
A Photographic Field Guide to Birds, Mammals, Reptiles, and Amphibians
Andrés Vásquez Noboa
Photography by Pablo Cervantes Daza

With this handy and accessible guide, visitors now have everything they need to identify and enjoy the majority of birds and animals they are likely to see. Written and illustrated by two of Ecuador’s most experienced nature guides and photographers, this book covers more than 350 birds, mammals, amphibians, and reptiles. It features over 400 stunning colour photographs and includes a range map for each species, as well as a brief account of the country’s natural history and biogeography. With its extensive coverage, attractive and easy-to-use layout, beautiful photographs, and nontechnical text, this is an essential guide for anyone who wants to explore the natural wonders of Ecuador.

Field Guide to the Fishes of the Amazon, Orinoco, and Guianas
Edited by Peter van der Sleen & James S. Albert
Illustrated by Peter van der Sleen

The Amazon and Orinoco basins in northern South America are home to the highest concentration of freshwater fish species on earth, with over 3,000 species that are currently allotted to 564 genera. Field Guide to the Fishes of the Amazon, Orinoco, and Guianas provides descriptions and identification keys for all the known genera of fishes that inhabit Greater Amazonia, a vast and still mostly remote region of tropical rainforests, seasonally flooded savannas, and meandering lowland rivers. More than fifty expert scientists summarize the current state of knowledge on the taxonomy, species richness, and ecology of these fish groups, and provide references to relevant literature for species-level identifications. This richly illustrated guide contains 700 detailed line illustrations and 190 colour photos, and 500 distribution maps for all genera.

December 2017. 512 pages. 200 colour illus. 700 line illus. 527 maps. 6 x 9.

The Arctic Guide
Wildlife of the Far North
Sharon Chester

The Arctic Guide presents the traveller and naturalist with an authoritative, portable guide to the flora and fauna of Earth's northernmost region. Featuring superb colour illustrations, this one-of-a-kind book covers the complete spectrum of wildlife—more than 800 species of plants, butterflies, fishes, birds, and mammals—that inhabit the Arctic's polar deserts, tundra, taiga, sea ice, and oceans. It can be used anywhere in the entire Holarctic region, including areas as diverse as the High Arctic islands of Canada, Norway's Svalbard Archipelago, Siberia, the Russian Far East, and Alaska and the islands of the Bering Sea. Detailed species accounts describe key identification features, size, habitat, range, scientific name, and unique characteristics that enable these organisms to survive in the extreme conditions of the Far North.

2016. 544 pages. 200+ colour plates. 800+ colour maps. 5 ½ x 8 ½.
Pa: 978-0-691-13975-3 £22.95 | $27.95

Cat Wars
The Devastating Consequences of a Cuddly Killer
Peter P. Marra & Chris Santella

"This deeply researched overview by conservation scientist Peter Marra and writer Chris Santella interlaces discussions of feline domestication and avian conservation with the science of decline and of feline spillover diseases."
—Nature

"Cat Wars has a broader, more ecological focus, documenting the global impact of cats on wildlife…. Marra and Santella explore the solutions (keeping cats indoors, catios—an enclosed area outside the home—and killing strays)…. This is an important and eye-opening book that clearly says: 'keep Tiddles a house cat.'"
—Adrian Barnett, New Scientist

Cat Wars paints a revealing picture of a complex global problem—and proposes solutions that foresee a time when wildlife and humans are no longer vulnerable to the impacts of free-ranging cats.

2016. 232 pages. 6 x 9.
Cl: 978-0-691-16741-1 £19.95 | $24.95

The Princeton Field Guide to Prehistoric Mammals
Donald R. Prothero

With illustrations by Mary Persis Williams

"With a focus on the 66 million years since the end-Cretaceous extinction stripped away all dinosaurs but birds, Mr. Prothero's book ably demonstrates that mammalian evolution has been just as circuitous and strange as that of the terrible lizards…. [This book shows] the unexpected variety that life is capable of and raise[s] the question of what the next 235 million years will bring."
—Brian Switek, Wall Street Journal

This book is the ultimate illustrated field guide to the lost world of the weird and wonderful prehistoric creatures. No other book presents such a wealth of new information about these animals—what they looked like, how they behaved, and how they were interrelated.

2016. 256 pages. 303 colour & B&W illus. 8½ x 11.
Cl: 978-0-691-15682-8 £27.95 | $35.00

Following the Wild Bees
The Craft and Science of Bee Hunting
Thomas D. Seeley
“As charming a book as I’ve read in ages, Following the Wild Bees engages with the natural world in precisely the same way that dozens of generations of bee hunters have done before. My advice would be, make a beeline for the bookstore.”—Bill McKibben, author of Oil and Honey
Following the Wild Bees is a delightful foray into the pastime of bee hunting, an exhilarating outdoor activity that used to be practiced widely but which few people know about today. Thomas Seeley, a world authority on honey bees, vividly describes the history and science behind this lost pastime and how anyone can do it. Following the Wild Bees is both a unique meditation on the pleasures of the natural world and a guide to the ingenious methods that compose the craft of the bee hunter.
2016. 184 pages. 50 colour illus. 1 halftone. 5 line illus. 5⅝ x 8⅞.

Wildlife of Madagascar
Ken Behrens & Keith Barnes
“With lovely images and well-written text, Wildlife of Madagascar covers a lot of groups and species and fills an important niche for English-speaking ecotourists visiting the island. The text is organized to allow quick access to details about different groups in the wild.” —Steven Goodman, Field Museum of Natural History

The Indian Ocean island of Madagascar is one of the world’s great natural treasures and ecotourism destinations. Like Galápagos, it is a laboratory of evolution, but on a much larger scale, since it is home to nearly an entire continent’s variety of species, from the famous lemurs to a profusion of bizarre and beautiful birds, reptiles, and amphibians. Small and portable yet thorough, this is the most comprehensive single-volume field guide to Madagascar’s wildlife and the first to provide extensive coverage of the island’s butterflies.

Animals of Kruger National Park
Keith Barnes
“Animals of Kruger National Park, by Keith Barnes, is the animal guide I wish I had when I visited South Africa.” —Donna Lynn Schulman, 10,000 Birds blog

Animals of Kruger National Park is a compact and beautifully illustrated guide, and the essential companion for any safari to the region. With an eye-catching design, authoritative and accessible text and easy-to-use format, this detailed photographic guide provides information on identification, habitat, behaviour, biology and conservation for all the mammals, reptiles and frogs likely to be seen. Introductory sections provide background information on the park and its habitats, when to visit and where to go, and other practical considerations that will help to enhance your understanding, appreciation and enjoyment of the animals of this incredible region.

Birds and Animals of Australia’s Top End
Darwin, Kakadu, Katherine, and Kununurra
Nick Leseberg & Iain Campbell
“Anyone lucky enough to be visiting this region of Australia should have a copy of the book.” —Frederic H. Brock, Wildlife Activist

One of the most amazing and accessible wildlife-watching destinations on earth, the “Top End” of Australia’s Northern Territory is home to incredible birds and animals—from gaudy Red-collared Lorikeets to sinister Estuarine Crocodiles and raucous Black Flying-foxes. With this lavishly illustrated photographic field guide, you will be able to identify the most common creatures and learn about their fascinating biology—from how Agile Wallaby mothers can pause their pregnancies to why Giant Frogs spend half the year buried underground in waterproof cocoons.

José R. Castelló
Foreword by Brent Huffman & Colin Groves

*Bovids of the World* is the first comprehensive field guide to cover all 279 bovid species, including antelopes, gazelles, cattle, buffaloes, sheep, and goats. From the hartebeest of Africa and the takin of Asia to the muskox of North America, bovids are among the world’s most spectacular animals and this stunningly illustrated and easy-to-use field guide is an ideal way to learn more about them. The guide features more than 300 superb full-colour plates depicting every kind of bovid, as well as detailed facing-page species accounts that describe key identification features, horn morphology, distribution, subspeciation, habitat, and conservation status in the wild.

*Princeton Field Guides*
2016. 664 pages. 337 colour illus. 313 maps. 5 ½ x 8 ½.
Pa: 978-0-691-16717-6 £27.95 | $35.00

New in Paperback

**Wildlife of Southeast Asia**
Susan Myers

"Wildlife of Southeast Asia is a valuable and worthwhile addition to the field guide literature. The text conveys just the right amount of information for non-experts unfamiliar with the region’s fauna and the photographs will serve users well."
—Robert Hutchinson, company director of Birdtour Asia

This handy photographic guide offers a stunning look at the wildlife of Southeast Asia, which includes Burma, Thailand, Laos, Cambodia, Vietnam, West Malaysia, and Singapore. Accessible text and more than 600 colour photographs help readers to learn about and identify the most common species found in the region, particularly the mammals, birds, reptiles, amphibians, and insects that visitors will most likely encounter.

*Princeton Pocket Guides*
2016. 256 pages. 640 colour illus. 2 maps. 5 x 8.
Pa: 978-0-691-15485-5 £18.95 | $22.95

New in Paperback

**Birds of Western Ecuador**
*A Photographic Guide*
Nick Athanas & Paul J. Greenfield
With special contributions from Iain Campbell, Pablo Cervantes Daza, Andrew Spencer & Sam Woods

“What is incredible is that even the rarest and most difficult birds are depicted with high-resolution photos. . . . This book is much more than a compilation of high quality photographs—it is a true field guide. This is not surprising since the two authors are both leading experts on Ecuador’s birds, and Nick Athanas is a leading bird guide for Tropical Birding.”—Frank Lambert, *Birder’s Library*

This is the ultimate photographic guide to the spectacular birds of this region. Featuring nearly 1,500 stunning colour photos of 946 species, this richly detailed and taxonomically sophisticated field guide will help you with even the toughest identification challenges.

2016. 448 pages. 1,500 colour photos. 946 maps. 6 ½ x 10.
Pa: 978-0-691-15780-1 £37.95 | $45.00
Birds of Botswana
Peter Hancock & Ingrid Weiersbye

“I found this guide to be of the highest quality. The content is well organized and well written, the scholarship is sound, and the illustrations are excellent.”
—Stephanie J. Tyler, Birdlife Botswana

Covering all 597 species recorded to date, *Birds of Botswana* features more than 1,200 superb colour illustrations, detailed species accounts, seasonality and breeding bars, and a colour distribution map for each species.

Princeton Field Guides
2015. 400 pages. 1,200+ colour illus. 597 colour maps. 5 x 8.
Pa: 978-0-691-15717-7 £24.95 | $29.95

The Warbler Guide
Tom Stephenson & Scott Whittle

*Drawings by Catherine Hamilton*

2013. 560 pages. 1,000+ colour illus. 50 maps. 6 x 8 ½.
Pa: 978-0-691-15482-4 | $24.95 | $29.95
Winner of a 2014 National Outdoor Book Award in Nature Guidebooks
Second Place, 2013 Best Bird Book of the Year, British Birds and the British Trust for Ornithology
Honorable Mention, 2013 PROSE Award in Single Volume Reference/Science, Association of American Publishers

Warbler Guide App
Tom Stephenson & Scott Whittle

The Warbler Guide App is the perfect companion to Princeton’s revolutionary and widely acclaimed book *The Warbler Guide*. Whether for study or field use, this innovative app delivers the full power of *The Warbler Guide* in your pocket—plus unique new app-only features. Exciting new 3D graphics enable you to view a bird from the exact angle you see it in the field. And the whole range of warbler songs is easily played, compared, and filtered.

Compatibility: Requires iOS 7.0 or later, or Android 4.1 or later.
App: $12.99

Winner of the 2016 PROSE Award for Best App / eProduct

Birds of Australia
*I Photographic Guide*
Iain Campbell, Sam Woods & Nick Leseberg

*With photography by Geoff Jones*

“This is a very useful addition to the range of books on offer, and given that it includes all of the recently-split species you really need it if you are visiting Australia.”—Keith Betton, *Nature Travel Network*

2014. 392 pages. 1,100+ colour photos. 6 x 9 ½.
Pa: 978-0-691-15727-6 | £27.95 | $35.00
One of the Sydney Morning Herald’s “Australian Writers Pick the Best Books of 2014”

Wildlife of the Caribbean
Herbert A. Raffaele & James W. Wiley

“This delightful pocket guide is a must-read for anyone planning a trip to the Caribbean region.”
—Lisa Miller, *Reference Reviews*

Silent Sparks
The Wondrous World of Fireflies
Sara Lewis
“A brilliant biologist, Sara Lewis exudes the curiosity and sheer joy that comes from exploring and celebrating the science of life. It is a great gift to us that she decided long ago to study fireflies and in this marvelous book she reveals a world of wonder that will leave all readers breathless with awe.” —Wade Davis, explorer-in-residence of the National Geographic Society
For centuries, the beauty of fireflies has evoked wonder and delight. Yet for most of us, fireflies remain shrouded in mystery: How do fireflies make their light? What are they saying with their flashing? And what do fireflies look for in a mate? In Silent Sparks, noted biologist and firefly expert Sara Lewis dives into the fascinating world of fireflies and reveals the most up-to-date discoveries about these beloved insects.
2016. 240 pages. 50 colour illus. 5 halftones. 3 line illus. 6 maps. 8 x 10.
