A gripping account of the Russian visionaries who are pursuing human immortality

A vivid look at the people and institutions connected with the Itaipu Dam

From an award-winning anthropologist, a lively, accessible, and irreverent introduction to the field

New perspectives on digital scholarship that speak to today's computational realities
Anthropology

We publish innovative and exciting books in anthropology that drive research agendas forward and that engage and enlighten the general public in their pursuit of answers to big questions.

- *Indebted* by Catruni Najian: How the financial pressures of paying for college affect the lives and well-being of middle-class families.
- *Martyrs & Tricksters* by Walter Armbrust: An important look at the hopeful rise and tragic defeat of the Egyptian Revolution of 2011.
- *Hacking Diversity: The Politics of Inclusion in Open Technology Cultures* by Rowan M. Martin: A groundbreaking book that examines all aspects of male aging through an evolutionary lens.
- *How Our Ability to Learn from Each Other Has Been the Essential Ingredient to Our Remarkable Success as a Species* by Richard G. Briffaes: How our ability to learn from each other has been the essential ingredient to our remarkable success as a species.
A gripping account of the Russian visionaries who are pursuing human immortality.

An in-depth look at the people and institutions connected with the Itaipu Dam.

A vivid look at how India has developed the idea of entrepreneurial citizens as leaders mobilizing society and how people try to live that promise.

From an award-winning anthropologist, a lively, accessible, and irreverent introduction to the field.

New perspectives on digital scholarship that speak to today’s computational realities.
